## THE SKI ESSENTIAL BOGNER'S UMA JACKET

By Valerie Joy Wilson, journalist  
and founder of Trusted Travel Girl

**B**ogner is known for its high-end but also quality skiwear, which serves dual purposes: style and functionality. You can wear this around town and still look fashionable and cute. The hood is removable, which is great if I'm ripping through the snow. The sheen on it is reflective but not bright. The premium down filling provides a warm, soft feel, while the snow guard underneath keeps the water from soaking your clothes. It's tailored, too, with a feminine touch that keeps you from looking like the Pillsbury Doughboy. [bogner.com](http://bogner.com)

### VALERIE'S OTHER PICKS

**Smith Vantage helmet**  
Smith implements the best technology. These come in different colors—I had one in mint—and fit really well. [smithoptics.com](http://smithoptics.com)

**Oakley Prizm goggles**  
Not only do these look amazing, but they also let you see all the details of the snow. They never fog up! [oakley.com](http://oakley.com)

**Fischer boots**  
For these, you go to a custom fitter. It makes them so much more comfortable and creates better ski days. [fischersports.com](http://fischersports.com)
